Abortions Now Legal In Michigan

LANSING, Mich. (AP)—Abortions now can be performed legally in Michigan by licensed physicians, according to Atty. Gen. Frank Kelley.

The law had allowed abortions only to save the life of the mother.

Dr. Maurice Reizen, state health director, said the only law that would apply to abortions now is one requiring persons who perform surgery to

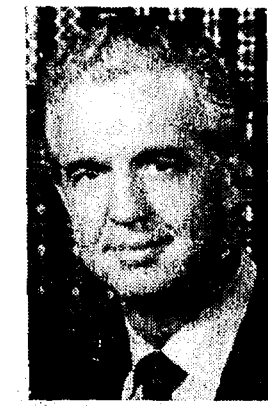

have Michigan medical licenses. Practicing medicine without a license would be a felony punishable by a maximum four years in prison and a \$2,000 fine.

Michigan Blue Cross and Blue Shield will pay only for abortions "that are diagnosed as medically necessary on our

policy holders," a company spokesman said today. Blue Cross will pay hospitals, but not clinics, for abortions, he said, and will not pay doctors who perform abortions for any other reasons.

The spokesman did not rule out the possibility of a policy change after the boards of directors for the two firms meet

in April. After Kelley's announcement, Reizen immediately mailed guidelines for abortion procedures to the state's 250 hospitals and to medical societies, obstetricians, gynecologists and abortion referral agencies.

ATTY. GEN. KELLEY
Makes Ruling

For Poor Who Need Abortions Medicaid To Pick Up Tab

LANSING, Mich. (AP) — State Medicaid money will pay for legal abortions for many poor women, who need them most, according to Stuart Patterson, deputy director of the State Department of Social Services.

"If it's legal, and we start getting bills for them, we'll pay them," Patterson said Friday. But even with the money problem solved, a poor woman in Detroit's inner city may find yet another stumbling block in their way. She may find there is no place nearby where she can obtain a legal abortion.

Those hospitals that primarily serve Detroit's poor are Hutzel, Detroit General, Wayne County General and Crittenton. All say they are either reluctant to perform abortions or lack beds.

C. Allen Riley, administrator at Crittenton, says his hospital cannot perform abortions until its board of trustees meets in April to discuss the matter.

Dr. H. J. Wells, director of Wayne County General, says his hospital can't perform abortions at all due to accreditation problems.

"Besides, we're not set up for it," he said. Neither, it appears, are Hutzel or Detroit General.

"There's been very little official planning at the state or local level about this," said Dr. Tommy Evans, chairman of the Department of Obstetrics and Gynecology at Wayne State University.

Taylor Warns Berrien Residents Orders Crackdown On Firearms

By BRANDON BROWN
Staff Writer
Berrien Prosecutor Ronald J. Taylor Friday announced a virtual "no deal" crackdown on firearms offenders starting March 9 and gave county residents through March 8 to get their firearms possessions legally in order.

The crackdown, he said, was sparked by skyrocketing 1972 prosecutions for firearms offenses and resisting arrest cases, and an apparently casual attitude about carrying pistols concealed in the county.

The period through March 8 is time in which county residents should register

unregistered pistols and turn in to police firearms with mutilated serial numbers and illegal devices such as starter or blank pistols, he said. Persons seeking information about the legality of questionable weapons can call the police or prosecutor, he said.

Starting March 9, he said, his office will begin a policy of prosecuting firearms offenses basically on the principal charge, and seeking jail and prison terms for those convicted.

The period through March 8 is intended to put county residents on notice and have them put their firearms possessions in order, he said, to avoid "hard line" prosecutions of, for example, someone who unwittingly carried a pistol without felonious intent.

Starting March 9, Taylor said: —Persons accused of carrying concealed guns will be prosecuted without reductions except where the weapon is empty and there's no suggestion of criminal intent.

—Armed robbery charges will stand, except for reductions to assault with intent to commit armed robbery which carries the same life sentence maximum.

CRASH KILLS ONE, INJURES FOUR: Cass sheriff's deputies and Sister Lakes firemen survey wreckage last night on M-152, site of head-on collision that killed one, hospitalized four and demolished two cars. Killed

in car on left was Yubie Clark Daw, 47, route 6, Dowagiac. Occupants of car on right were three Dowagiac area teenagers, including Dowagiac high school basketball player who had played in game

against Niles earlier last night. Wreckage blocked M-152 for two hours. Gasoline from ruptured tank had to be washed from road by firemen. (Mike McDonough photo)

Sister Lakes Man Is Killed In Crash

SISTER LAKES — A Sister Lakes man was killed and four other people hospitalized as the result of a head-on crash between two cars on M-152 here last night.

Dead is Yubie Clark Daw, 47, route 6, Dowagiac. Among the injured were three Dowagiac area teenagers, including a high school basketball player,

who had seen limited action in Dowagiac's game at Niles earlier last night. Both cars were demolished by the force of the collision, which occurred at about 10:30 p.m., about one-eighth mile south of the intersection of M-152 and Garrett road, according to Cass deputies.

In critical condition this morning in the intensive care unit at Memorial hospital, St. Joseph, was Arlis Joan Swartz, 18, route 6, Dowagiac. Also

hospitalized at Memorial was Ernest Berkley, 16, of 308 Wooden avenue, who was listed in fair condition.

Listed in guarded condition in the intensive care unit at Lee Memorial hospital, Dowagiac, was Patty Wiggins, 17, route 1, Twin Lakes, Cassopolis.

In serious condition at Mercy hospital, Benton Harbor, was Edward Holden, 23, route 4, box 490, Benton Harbor. Holden was transferred to Mercy from Lee last night.

The three teenagers were occupants of the Swartz car. Holden was traveling in the death car. Cass deputies had not determined this morning who was driving either vehicle at the time of the accident.

New Millionaire Blows \$290 On 'Sale' TV Set

TAYLOR, Mich. (AP)—Michigan's first million-dollar lottery winner went out on his first spending "splurge" Friday and bought a small portable color television set. It was on sale.

Hermus and Ann Millsaps of Taylor, winners of the big drawing Thursday night, took their first installment of \$50,000 and went on a playful spree on their first day as millionaires.

Climbing into their battered 1961 Chrysler, the Millsaps first headed for the bank, where they added \$47,000 to the \$5 they had in a savings account and deposited \$3,000 in their checking account.

Bill paying was next on the agenda, as Millsaps paid two months' mortgage payments, then called the telephone company to tell them the \$45 he owed for two months service would be to them soon.

"We owed for a couple months, and I was afraid they were going to cut off the service," he said. "I asked them: 'Any chance of buying some stock in Michigan Bell?'"

The couple headed for the television shop next to pick out a replacement for their black and white set which broke down about a week ago. They chose a store in Dearborn Heights on the recommendation of their

W. J. Banyon, Editor and Publisher
Bert Lindenfeld, Managing EditorIsraeli Fast Shot
Missed The Mark

The state of Israel has maintained itself as a national entity since its founding 25 years ago by the military feat of fast and accurate reaction.

Retribution against poachers on its domain has been swift and decisive.

This determination has been absolutely necessary if 3 million people are to maintain themselves against 40 million neighboring Muslims of varying nationalities who under propitious circumstances would liquidate Israel as an interloper in the Middle East.

Wednesday's shootdown of a Libyan civilian air liner by two Israeli military craft killing more than 100 passengers and crew members is a reminder that most rules to be workable should provide for some exceptions. In this instance the fast draw may not be the best maneuver.

The commercial ship left Tripoli, Libya's capital city, for Cairo and for some reason overshot the Egyptian airport by a few minutes into the Gaza Strip airspace claimed by Israel by reason of military occupation.

The facts asserted by each side vary at that point.

The plane's few survivors claim the Israeli aircraft shot them down without warning.

The Israeli government maintains the pilot refused to heed landing instructions and warning shots to enforce them; as countenanced by international law. Another version says the pilot radioed a defiant message to his pursuers.

Whatever the truth may be, two missile shots quickly plunged the transport to the ground.

The Israelis acted entirely within in-

ternational law. A nation has the right to repel or destroy an intruder upon its borders.

In light of the Middle East's touchy situation the question runs to the merits of the reaction. Did a few commanders go trigger happy on their own, or were they carrying out a questionable judgment from the Jerusalem government?

As the Libyan plane was spinning downward, an Israeli commando unit was returning from a highly successful raid against terrorist training camps in Lebanon.

The outside world accepts this as a perfectly proper exercise in sovereign behavior. A neighboring country harboring criminal elements can not complain if the victim adopts a positive self defense.

Blasting a passenger plane reasonably discernible as being unarmed and flying under conditions too obscured for spying raises the inquiry of how needful it is to knock off a kid's head for his first digging into the jam pot.

If the reader has seen the movie, "Lawrence of Arabia," he will realize that warfare under the desert's harsh conditions has never drawn the distinction between punishment and penalty. Shooting a marauder has not been a debatable issue.

Israel's difficulty is in fighting two wars; one that Lawrence knew; the other in the public arena of trying to show how a civilized people is beset by savages from the outside.

Though Israel has to win the first if she is to stay alive for the second, she has to remember it can not be won by blind copying of the enemy's tactics.

The So So Movies
Doing Well Here

Before he had to preside over the saddening task of closing the Liberty theatre in Benton Harbor last year its manager, Harry Himes, was moved to the wishful reminiscence that if he could just get a succession of film fare like "The Stewardesses," his superiors would never consider boarding up the area's largest showplace.

"The Stewardesses" was a classy flick, classy meaning that the girls cavorting in the nude and semi-nude were as pretty and curvaceous in clothes as minus habiliments. The plot amounted to nothing, but the scenery and photography easily covered that deficiency.

A survey taken this week among the three surviving movie house managements by our staffer, Bill Rush, confirms Himes judgment is still valid for this area.

Violence, sex and the black theme in dosages hot enough to carry an R or an X rating move the turnstiles while the partially introspective treatment of youth's problems as presented by "Separate Peace" leaves empty seats.

Although Rush's interviews disclose that what turns on a New York City film critic may lay an egg in the Twin Cities, we suspect his findings coincide fairly close to the box office draw elsewhere.

It would be easy to draw the simplistic conclusion from all this that today's movie goers are degenerate at worst or suckers at best.

A better explanation, we suspect, is

with the nature of mass entertainment. A disc jockey at a radio station can spin a platter. If it grabs the audience, the station manager is in position to sell more sponsorship. If it bombs, he tries something else and about all the station loses is the cost of the record.

Launching a movie is not that simple. There is a large startup cost, from scripting and casting to distribution, which has to be paid out before the first ticket is sold. Even the low budget picture does not escape that entry fee.

Necessarily this requires a producer with an instinct for what can be marketed.

For the past three or four years this instinct has headed the movie makers into themes which television, beleaguered by government regulation and viewer prejudices, has to avoid.

The hot picture consequently is answering a demand for which TV has to be extremely circumspect.

Movies today occupy the same position towards television which the legitimate stage held toward movies before the boob tube started coming on strong. The larger the audience base the blander the entertainment fare must be.

Dismal as is the current brand, there is always the hope it may improve.

One of the worst failings in most movies, regardless of rating, is absence of a discernible plot in which the reader senses being taken through a beginning, a middle and an end. The present product splashes itself at the audience.

"Patton," for example, dealt with violence. War can not be otherwise. But it was a great show because the viewer and the tempestuous general moved in the same cadence.

The customer learned something as he was being entertained.

The current fare merely blasts away the hours.

Long nosed bats in Arizona like to eat the blooms of the giant saguaro cactus, the National Geographic Society says, but this delicacy involves risk. Bats sometimes are found impaled on the spines of the plants.

The Dorz people of Ethiopia believe that well fed builders erect better houses, National Geographic says. While one of their thatch and bamboo huts is under construction, they ply the craftsmen with delicacies.

"And Now My Next Feat!"

GLANCING BACKWARDS

MELODRAMA
ISN'T DEAD
— 1 Year Ago —

The melodrama is not dead and helping to preserve it — a few feet at a time — are eight St. Joseph high school seniors working on an English assignment.

They are making a silent movie, titled: "A Funny Thing Happened on the Way to the Election." It has a sinister plot, several thugs, an unscrupulous politician, a siren for a heroine, a husky body, a hero and a happy ending. The students are members of English classes taught by Miss Mildred Webster and Mrs. Sharon Ingle.

FELLOWSHIP
TO TEACHER
— 10 Years Ago —

Roy M. Davis, St. Joseph high school English teacher, is one of 90 instructors awarded a

John Hay Fellowship for 1963-64.

The announcement today was made by Dr. Charles R. Keller, director of the John Hay Fellows program, New York. Davis, who resides in Hartford, is one of four in Michigan to be honored. He lives with his wife and four children at 26 East Shephard, Hartford.

YANK FIGHTERS
SWEEP BERLIN
— 29 Years Ago —

American Air Force fighter planes conducted an offensive sweep over Berlin today while the eighth airforce's heavy bombers were attacking targets in northwestern Germany. It was learned authoritatively tonight. It was the first time that formations of the American airforce ever had flown over the German capital. There was no indication in

early information that the fighter planes had sought to attack targets in Berlin, which up to now had been assaulted solely by the RAF.

NAME OFFICERS
— 39 Years Ago —

The Stewart school PTA has named Mrs. Milton Davis as president; Mrs. William Douenmark and Mrs. E. Johns, vice presidents; Mrs. Paul Dietrich, secretary and Mrs. Alfred Retschiag, treasurer.

NEW PRESS
— 49 Years Ago —

A new chapter in the progress of journalism in St. Joseph was written with the placing into operation of the new 16-page Duplex Tubular Rotary press of The Herald-Press. It is capable of printing 30,000 papers an hour and is one of the most modern examples of printing machinery ever devised, and seldom found in cities the size of St. Joseph.

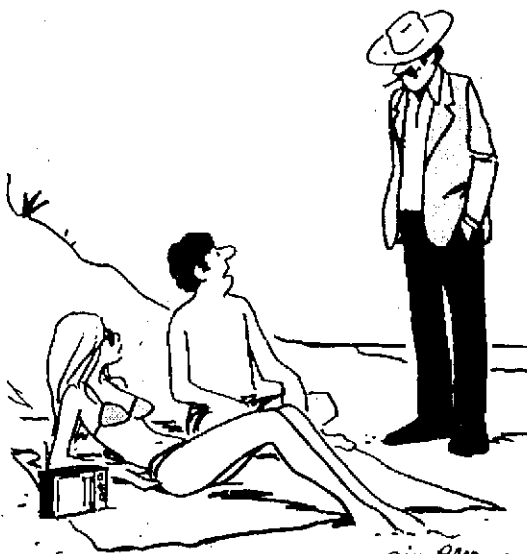

NEW FACTORY
— 59 Years Ago —

Machinery of the Benton Manufacturing company, the new factory located in St. Joseph by the local development company, has been shipped from Lake Odessa. The new factory will be located in the old Williams Brothers Box factory. The building is being remodeled for the new tenants.

TREE GOING
— 83 Years Ago —

Commissioner James Early is cutting down the large locust trees that have been standing on Baard Street since the first settlement of St. Joseph. Jim gets the trees for taking them away, and they will make several cords of good summer firewood. He also is busy doing some excellent work on the Lake Shore road beyond the Thomas orchards, where he has a force of men at work raising the grade and putting in a drain to carry off the water.

BERRY'S WORLD

"I know your routine from the TV, fella. Now, get outa here with your 'Little Cigars'!"

Ray Cromley

Devaluation Will
Not Solve Balance

WASHINGTON (NEA) — The evidence suggests devaluation of the dollar will not solve U.S. balance-of-payments problems.

For the most part, it is not price which handicaps most U.S. exports abroad. It is rather discrimination of one type or another — blatant and direct, or subtle.

Japan, the European Common Market and a host of other areas large and small have, over the years, built in so much protection for their own goods that a 10 per cent or even a 20 per cent cut in the dollar value may have little effect.

In some cases the import of some goods is flatly prohibited, or direct or indirect quotas set. In other cases, the country adds so many open and hidden taxes that competition is impossible. Or it may tie certain imports in so much red tape that sizable trade in these products is difficult. Other countries make marketing and distribution overly cumbersome, even where imports are permitted.

It would be easy also to overestimate the amount by which the 10 per cent cut in dollar value will lower imports over the long run. In Japan, and some other lands, imports are closely tied with exports.

Since devaluation of the dollar and some other currencies will mean cheaper imports,

through some government cooperation the Japanese and others should be able to adjust some export prices accordingly, thus continue to do business on a major scale.

Then there's the question of what motivates Americans to buy foreign goods. In some cases, of course, it is because the imported products are cheaper. But in many other instances Americans buy foreign goods because a European car is a status symbol. So with a particular brand of Japanese TV or camera, or some import from Hong Kong.

A recent study suggests countries are more likely to run into balance of payments problems when their Gross National Product is rising rapidly and the citizenry have more money to spend, indicating a connection between large imports and prestige buying — rather than with bargain hunting.

How then does one break down the protectionist barriers in Japan, West Europe, Latin America and in the controlled economies of the Soviet Union, East Europe and China?

For at least 25 years U.S. negotiators have been attacking this problem with little success. Calm talk, reasoning and major U.S. concessions over the decades have not produced results.

Jeffrey Hume

The Perversity Of
Radical Cause

The extent to which violence and incredible perversity came to characterize the radical movement of the sixties is not generally recognized. Certain bizarre cases are dimly recalled, of course: Diana Oughton, blown to bits in a Greenwich Village explosion; Sam "Mad Bomber" Melville, killed in the Attica riot; Kathy Boudin, Bernardine Dohrn, Mark Rudd, vanished and maybe dead. But these are perceived as isolated, individual cases.

An article by Lewis Feuer in "The Annals of the American Academy," which I discussed briefly in a recent column, makes it clear that these people were far from isolated cases. Violence, just as often directed against other radicals as against the outer society, and frequently directed against the self in the form of drugs and suicide, was integral to the radical movement in the later sixties.

Feuer examines in some detail, for example, two suicides of radical student leaders, Marshall Bloom and Robert Starobin.

Bloom, the son of a prosperous Denver businessman, first came to notice as the instigator of the revolt at the London School of

Economics in 1967, for which role he was promptly expelled from Britain, even becoming the subject of a London Times editorial: "Bloom, Go Home." Arriving back here, he founded the Liberation News Service of the New Age, designed to serve the lodge-podge of underground and radical papers then springing up. Before long, however, the LNSNA split into hostile factions, the more toughly political Marxists fighting the "freaks" for control. At the head of the freaks, Bloom fled to a New England farm, taking the printing press with him, but the rival faction pursued him there. Here is the scene among our would-be liberators, as described by a co-founder of the LNSNA, Ray Mungo:

"There were suddenly five of us sitting on the bare floor of the back bedroom, surrounded by twice that number of armed Marxists. Three or four guys began to belt him (Bloom) across the face, in the stomach, in the groin, while the rest of us watched from our little cell. Now Marshall was bleeding, scarlet rivers running down from his face across his chest and down his legs. Now Marshall was naked and limp. Now his body itself was being tossed, banged against a wall, kicked to the floor."

Bloom apparently was destroyed by the contrast between the utopian promises of the movement and the animal ferocity of the movement as he actually encountered it. In November, 1969, he killed himself with carbon monoxide from an automobile exhaust pipe.

In Robert Starobin, Feuer examines a parallel case. Bloom had sought a sort of Charles Reichian freedom in communal existence. Starobin, the son of Joseph Starobin, foreign editor of The Daily Worker, dreamed of a racial convulsion, the violence of which would bring down American society. A product of Berkeley and the 1964 Free Speech movement, he became an apprentice historian, and tried to show in his scholarly writings that revolutionary resistance had never died out among the slaves in the Confederacy, but his present focus was on violent revolution here and now. His writings on one Denmark Vesey, for example, the leader in a slave rebellion, appeared regularly in a Black Panther newspaper.

WRITES IN BEHALF
OF ALL POWS

Editor,

I have written this letter on behalf of all POWs. There have actually been people that have been condemned and criticized the thought of these men coming home.

These few people say that it will cause over-population. What does it matter, people die off and there are babies being born to replace them. These

things even themselves out eventually.

Then there are others who are worried about losing their jobs to these men. Maybe so, but if they were as good workers as they put on to be they wouldn't have anything to worry about. Besides who deserves these jobs more than those men. They're the ones who have lost years off of their lives, not you.

Just recently I confronted a man in a dispute. He said he was sorry to see these men come home. If he were in their place, he'd want to come home and receive a warm and friendly welcome, not a bunch of ridicule.

I'm sure that when I say that I'm very happy and proud to have these men home, that I speak for a lot of people all over this world.

All of these men have all of my respect and warm thoughts. I hope someday to meet a few of these men, and I hope that it will be very soon.

Courthouse Employees Ask For What Deputies Got

Petitions were circulating among employees of the Berrien county courthouse in St. Joseph this week asking county commissioners to grant employees some of the fringe benefits accorded to unionized Berrien sheriff's deputies last

Tuesday.

Several employees reported the petitions were being signed by courthouse employees but that the origin of petitions was unknown.

One sample, addressed to Board Chairman Edward

Mattix and other commissioners, asked for: An additional \$5,000 of county-paid life insurance; Good Friday and Easter holidays; accumulation of sick leave to 140 days; and longevity pay increases at half a per cent a year between 5 and 16 years rather than the current 2.5 per cent at 7 and 14 years.

Some petitions reportedly carried the threat of unionization if requests were not met, but at least one sample had the threat eliminated by employee signers. Most courthouse employees are not unionized.

Commissioners last Tuesday signed a 1973 contract with sheriff's deputies that raised pay, changed longevity, added another paid holiday, increased sick leave, and boosted life insurance, among others.

At the same time, commissioners kept county employees in line with new benefits for deputies by granting them a fourth week of vacation after 15 years and county-paid hospitalization for all employee dependents not otherwise covered.

CMDR. VERNON PETERS

Hartford Musicians All-Stars

HARTFORD — Five Hartford high school musicians are members of the All-Star band of the Lansing Conservatory of Music which began rehearsals today at Sparta.

A total of 222 bandmen from 75 high schools in Michigan were selected for the band, which will play a free public concert at 3:30 p.m. Sunday in the Sparta high school gym.

Hartford students selected were: Lynne Ward, flute; Janet McGowan, clarinet; Denise Miller, cornet; Gary Sexton, trombone, and Time Melvin, percussion.

SJ Officer 'Competency' Of Oliver Antarctic Unit Chief

Cmdr. Vernon W. Peters, son of Mr. and Mrs. George Dioguard, 119½ N. Pier street, St. Joseph, has been promoted from executive officer to commanding officer of his unit at the south pole.

Peters graduated from St. Joseph high school in 1952 and from Lake Michigan college in 1954. That year he joined the Navy.

He will be the new commander of squadron VXE-6, which is based in Quonset Point, R.I. and spends October-March in Antarctica. The squadron flies provisions, equipment and people to scientific research centers all over the polar continent.

Peters lives with his wife, the former Helen Maynard of St. Joseph, and their three children in Quonset Point.

TO MARK BORDER
KUALA LUMPUR, Malaysia (AP) — Thailand and Malaysia reached agreement today on remarking their common border and announced they soon will place new boundary stones every 400 yards.

SBA Opens Disaster Office In Berrien For Storm Loans

By ALAN AREND
Staff Writer

Property owners along the Lake Michigan shoreline in Berrien county will be able to apply for low interest emergency disaster loans — the first \$5,000 of which is free and does not have to be repaid if their property was damaged from flooding that occurred during the storm of last Nov. 14.

At a special press conference held at the Twin Cities Chamber of Commerce in Benton Harbor, yesterday, William Meteers of the Detroit district office of the Small Business Administration (SBA) said the SBA would be opening a disaster office in Berrien county on Monday to serve victims of the Nov. 14 storm.

The office will be located on the third floor of the Berrien county courthouse in St. Joseph in Room-B, Monday thru Friday, from 8:30 a.m. to 5 p.m. until March 31. Robert D. General of the Detroit district office will be in charge of the local disaster office and it is expected that at least two other SBA men will also be working out of the office.

Meteers said that long term erosion problems are not covered by this recent declaration and the SBA is authorized to make loans only to those affected by the Nov. 14, 1972, Lake Michigan storm.

The low interest loans (one percent) can be made for a term of not more than 30 years. The first \$5,000 is forgiven, however, and the burden of proof of damage resulting from the disaster of Nov. 14, rests solely with the applicant. A maximum loan of \$10,000 can be had for personnel property damage and \$50,000 for damages to buildings and structures, such as homes and seawalls, etc.

The SBA does not charge fees for its services and SBA employees working in the Berrien disaster area will be carrying Federal credentials which disaster victims should ask to see.

Tom McCall, director of the Berrien county sheriff's departments office of emergency preparedness, said residents all along the 42-mile of Lake Michigan

shoreline in Berrien county, could fall under the disaster loan program.

Decisions on whether or not property owners will qualify for the emergency loans, rest solely in the hands of SBA inspectors from the Chicago office, who will check out claims.

Meteers said property owners who received damage from the Nov. 14 storm should get an estimate on what it will cost to repair the damage and stop in at the local office at the courthouse for a loan application so a time can be set up with SBA inspectors to verify the damage. The Berrien disaster office can be reached by calling the courthouse and asking for extension 340.

The SBA declares its own disaster areas and victims must have owned the property in question at the time of the

Nov. 14 storm in order to qualify.

Loan applications will be handled on a first-come, first-serve basis, and deadline is March 31, according to Meteers.

"If we find that the loan money has not been used properly, such as buying a new car with it, then a 50 percent fine will be levied and victims would end up having to pay back \$7,500," Meteers said.

McCall also reminded area residents that low cost flood insurance can be made available to them under the National Flood Insurance program.

To find out more about this program, interested citizens are asked to contact either McCall at the Berrien county sheriff's department or the county Planning Commission office at the courthouse.

NOT A LOTTERY DRAWING: This drawing was held in Lansing, too, but not for \$1 million. Benton Harbor Mayor Pro Tem Virgil May, left, and Alpena Mayor William D. Gilmet draw names pairing Michigan municipalities for Mayors Exchange Day. The 20th annual event will take place May 21, Government Day of Michigan Week. Benton Harbor is paired with Albion and Albion and Alpena with Owosso.

Hearing Will Determine 'Competency' Of Oliver

A hearing is scheduled at 1:30 p.m. Wednesday in Berrien circuit court on a motion to commit the accused murderer of a state trooper to a state institution to determine his competency to stand trial.

Benton Harbor Atty. John Dewane has filed a motion to have Kenneth Eugene Oliver, 32, of Detroit, committed to the state Center for Forensic Psychiatry for evaluation of his competency to stand trial.

The hearing is set before Judge Julian Hughes.

Atty. Dewane's motion claims the defendant appears incapable of understanding the proceedings against him.

Oliver is accused of first-degree murder of Trooper Steven DeVries Oct. 12 during a flight from a bank robbery in Niles. Oliver is being held without bond at the county jail in St. Joseph.

During a motion for setting of bond last Jan. 22, Oliver's then-counsel, Atty. James Jesse

of Buchanan, former counsel, told the court the defendant is a college graduate and ex-serviceman, married and father of two, owner of a \$38,000 condominium in Detroit and three corporations, and member of clinical pathology and medical technology associations, among others.

Law Firm Moves Into New Offices

The law firm of Spelman, Taglia, Meek and Lagoni will be located in new offices

Monday in the St. Joseph Savings and Loan building, 301 State street, St. Joseph.

Members of the firm, which is engaged in the general practice of law, are John H. Spelman, Paul A. Taglia, Stuart F. Meek, Jr., and William C. Lagoni.

The firm was formed earlier this year following dissolution of the firm of Killian, Spelman, Taglia, Meek, Lagoni and Burdick. Joseph Killian remains in practice at 414 Main street, St. Joseph, and Carl Burdick opened his own office at 600 Main street, St. Joseph. The new four-member firm, in addition to its new quarters, also maintains a Bridgman office, at 4235 Lake street, with Lagoni as member in charge.

Feb. 28 Deadline For Dog Licenses

Wednesday is the deadline for Berrien county dog owners to buy 1973 dog licenses at county and township treasurer offices, some city halls and county dog pound at Berrien Center. The fee is \$4.

Berrien Treasurer William Heyn and K-9 Chief Stanley Wolkins issued the reminder and noted licenses bought after Wednesday cost an additional \$5, for a total of \$9.

Owners must present a valid rabies vaccination certificate. All dogs age six months and older must be licensed.

Chief Wolkins added dog owners today can kill two birds with one stone by having their animals vaccinated and licensed at one location, the county dog pound.

A veterinarian will be on hand from 1 to 5 p.m. today to give rabies shots so dogs can be licensed on the spot.

Tigers' High-Scoring Fast Break Back In High Gear

BY JIM DeLAND

Sports Editor

GRAND HAVEN — Benton Harbor's basketball team is off and running again.

Slowed to a dead halt in their last two outings, coach Earl McKee's Tigers shifted their fast break into high gear here Friday night and raced to an 83-68 victory over Grand Haven in their final Lake Michigan Athletic Conference game of the season.

The overpowering rebounding of Anthony Wooden, Reggie Walker and David Adkins combined with the work of guards Gary Phillips and

Jettie Rice produced lightning fast scoring strikes the Buccaneers were simply unable to stop.

"That third quarter was a track meet," said Grand Haven coach Al Schaffer of a deadly eight-minute span when the Tigers put in 12 of 16 shots and outscored the Bucs 25-13 with Phillips alone collecting 13 points.

"We didn't want to play that fast. We wanted to play that fast on defense, but not on offense...but it's hard to keep shifting back and forth. They made us play their game and

then we got behind and had no choice."

The result was the Tigers' biggest scoring output in three weeks and the most points scored all season against defense minded Grand Haven, which had held its last four opponents under 60 points.

Phillips, the chief trigger man on the fast break, led the way with 23 points while Rice had 11 points and 10 assists. Wooden had 16 points and 18 rebounds in a strong all-around performance that also included several super passes for assists while Adkins had 17 points — 10 in the final quarter.

Grand Haven also had four players in double figures with Gary Speer scoring 16 points while Chris Bethke, Ron Nusmer and Jeff Schaffer had 12 apiece.

Grand Haven actually led most of the first half until the Tigers strung together 10 straight points to take a 33-29 lead with two minutes left in the second quarter and Benton Harbor held only a slim 35-33 edge at intermission.

But in the third quarter McKee had Phillips and Rice pick up the Grand Haven guards downcourt and it seemed to pick up the entire

tempo of the game. "Our guards didn't really do that much, but I thought it got Grand Haven playing faster than they wanted to," McKee suggested. "In the first half they were taking their time against our zone and getting some good shots."

Both teams hit 50 per cent in the first half, but in the final two periods the Tigers poured in 66 per cent of their shots while Grand Haven slumped to 39 per cent shooting.

"That's a lot of wasted effort...we can't put forth much more effort than that," said Schaffer, whose team used a

furious all-court press for the entire game. "We did some of the things we wanted to, but we didn't do them well enough, and Benton Harbor played very well tonight."

Benton Harbor finished with a 42-25 rebounding advantage with Walker and Adkins each snagging eight while forward Chris Bethke picked off 12 for Grand Haven.

The Tigers hit 56 per cent from the field—Phillips sank 11 of 14—and 11 of 18 from the free throw line.

Grand Haven connected on 31 of 71 (.437) from the floor and 6 of 13 from the free throw circle.

The victory was Benton Harbor's 15th straight over Grand Haven, which has not beaten the Tigers in 12 full years now.

It leaves Benton Harbor with records of 8-2 in the LMAC and 12-6 to take into Tuesday's game at Niles.

Grand Haven is 5-5 in the conference and 8-9 overall.

The preliminary game was less pleasing to Benton Harbor fans as coach Paul Wilhite's Tiger Cubs were knocked out of a share of the junior varsity championship with a 66-61 loss to the Bucs.

Carl Jeffries scored 18 points,

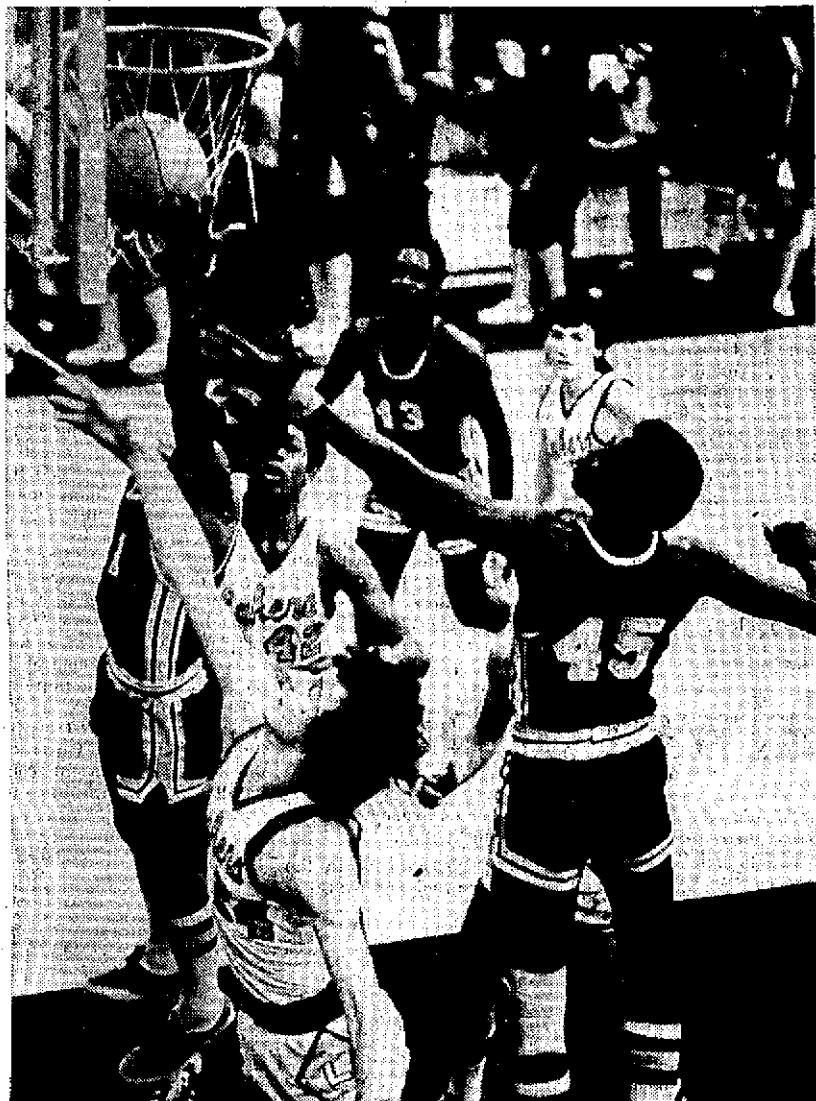

Edward Albert had 17 and Napoleon Redmon and Mike Howard 10 apiece for Benton Harbor, which now stands 13-5.

Covert Derails Laker Express

Catholic Streak Ends, 65-56

By BILL MOORE

Staff Sports Writer

Covert made a bigger noise than the referee's whistle Friday night as it upset Lake Michigan Catholic 65-56 in the Laker gym.

The Bulldogs bit into the eighth-ranked Lakers late in the first quarter and led all the way, despite having to work around a total of 53 personal fouls which hampered both offensive attacks.

The loss was only the second for the Lakers this season and snaps a nine-game winning streak. They are now 17-2 with one game remaining.

"This game was very similar to our loss to Hackett," said Lake Michigan coach Sam Skarich. "We didn't play the way we like to. There were a lot of things that stopped our momentum."

Some timely Covert buckets shut off the Lakers comeback attempts, but it was the ref's whistle which kept both teams from getting their offenses fully in gear.

The calls went both ways, with the Lakers drawing 27 personals and Covert 26. The Bulldogs hit 21 of 31 shots from

the line, while Lake Michigan canned 20 of 29.

But of the two teams, the Lakers ended up the hardest hit with four starters fouling out and the fifth finishing with four calls. "It's tough to have your starting guards sit out as much as they did and expect your bench to go in and be hot," said Skarich.

But even when the Lakers had their starters in the game, they never managed to get their offense in gear against the Bulldogs' 1-3-1 defense.

"We thought we would have to shut off (Dave) Carnegie and the shot from the corner and force their guards to put the ball up," said Covert coach Rod DeYoung. "It worked fairly

well and (Larry) Lauderdale did a good job on Carnegie."

Carnegie, who was the only starting Laker to finish the game, ended up with 15 points and 10 rebounds.

Lauderdale put in 21 points to lead the Bulldogs, with Bobby Dobbins scratching 16.

The Covert victory came without leading scorer Carl Moody (19.1) who quit the team earlier in the week in order to work.

"I don't know if they (Lake Michigan) played as good as they could have or whether we were really that good," said DeYoung, in sizing up the outcome.

"They won their league championship (Red Arrow) and had the rating, so I don't know what the game really meant to them other than adding to their record."

Neither team put together a consistent offense during the game, but it was Covert which managed to string the important points together.

With the Lakers leading 7-6 with 3:20 left in the first quarter, Covert put 10 straight points on the board to take a 16-7 advantage with 20 seconds gone in the second quarter.

Lauderdale put in 11 points in the frame as Covert built its lead to 30-20 before Lake Michigan found the range at the line to cut the advantage to 35-31 at half.

The Lakers hit 12 of 17 free throws in the quarter, including seven of eight in the final minute.

The Lakers cut the lead to 47-35 early in the second half. But Lauderdale pitched in two baskets, along with one by Dobbins and two free throws by Ricky Wilburn to open a 45-35 gap.

Lauderdale had eight points in the quarter as Covert held a 49-40 advantage going into the final period, in which they reeled off the first five points for a 54-40 lead.

The Lakers could never come any closer than eight points the rest of the way.

"I have to give Covert a lot of credit," said Skarich. "They scored 65 points and that is a lot more than we like to give up." The Lakers had been giving up 50 points defensively with 67 as the most points allowed in a game.

Lake Michigan's usual potent forward combination of Gary Pelkey and Jim Devereaux came up with only a total of 15 points, with Devereaux getting 14, eight in the last quarter.

Pelkey got in just over a

Bears Finally Beat Igloo Chill

St. Joseph Comeback Nips Portage Northern

By JOHN VANDEN HEED

Staff Sports Writer

PORTAGE — Coach George Gaunder and his St. Joseph Bears got another chilly reception in the Portage Northern igloo here Friday night.

But for the first time in the five years that Gaunder has been the St. Joe coach, the Bears went away with a warm feeling.

After facing deficits of up to eight points while trailing most of the game, St. Joe rallied for a 55-54 Big Six victory which marked Gaunder's first win in the Huskies' domed fieldhouse.

St. Joe got the first two-point of the game but then didn't lead again until 6-9 center Tom Scheffler made a bucket just before the buzzer ending the third period to give the Bears a 40-38 advantage.

In the end it was a pair of clutch free throws by Don Ciaravino with eight seconds remaining which gave St. Joe a 55-51 lead which Northern couldn't overcome.

Scheffler took game scoring honors with 23 points and teammate Dan Griswold added 10. Northern got 22 tallies from John Higgs and 12 from Don Davis.

Northern, which lost to St. Joe 61-47 earlier in the season, posted its best field goal shooting of the season at 50 per cent but was hurt by 26 turnovers. The Bears also had a

second-straight bad ballhandling game with 21 miscues.

"If you wanted to put in one thing," commented Northern coach Bud Fossen on the outcome of the game, "it would have to be the number of mistakes we made. But from the standpoint of hustle and determination I can't ask for anything more."

Gaunder wasn't quite so pleased with the squeaker which was the Bears' fifth straight win in an excellent 16-3 season.

"The only thing significant at all was that we finally won a game up here," declared the St. Joe mentor. "Our defense was the only thing that saved us tonight. The zone press in the second half caused some more turnovers. And we did keep pretty good floor balanced against their fast break. We probably got more out of it than they did...it didn't hurt us I know that."

Northern posted its 50 per

cent field goal mark by making 25 of 50 shots. St. Joe posted a 42 per cent average by connecting on 25 of 60.

The Bears got the deciding point at the free throw line by swishing five of seven charities. The Huskies netted four of six.

Northern, which ended Big Six play at 2-8 and stands 7-11 overall, posted a 32-45 rebounding edge, including 16 by Higgs. St. Joe, which closed out league play at 7-3, got nine rebounds apiece from Scheffler and Griswold.

A first quarter featuring ragged ballhandling and a total of 13 turnovers ended with Northern in front 14-10 after making seven of 14 shots.

The Huskies opened up an eight-point lead at 20-12 in the second quarter as the Bears got just two points in about the first three minutes while making three turnovers and just one of four shots.

St. Joe then rallied for eight

straight points and a 20-20 tie. The game was also deadlocked at 26-26 at halftime with a total of 26 turnovers already on the charts. Northern added 10 more turnovers in the third quarter to allow St. Joe to finally go in front 40-38 entering the final frame.

The lead exchanged hands six times in the fourth quarter before St. Joe finally took the lead for good at 51-50 with 2:30 remaining on a two-point by Rick Cerecke.

Northern was still down by one at 53-52 with 1:55 left, and it remained that way until Ciaravino went to the free throw line with eight seconds showing on the clock.

The Bear senior made the crucial first charity toss. He missed the second but was awarded another attempt for a lane violation against Northern. He then made good on the extra opportunity for what proved to be the winning point.

In the junior varsity preliminary, St. Joe wrapped up the jayvee Big Six crown with a 58-49 triumph which included 18 points from Mickey Ott and 13 from Ed Owsianka. Northern's Tom Barrow tallied 21.

Coach Clare Adkin's Bear jayvees, who were playing without regulars Jeff Miskill and Greg Priebe, now have five straight games of allowing opponents less than 50 points, eight consecutive wins and an impressive 17-2 record.

Here's Real Cage Barnburner!

CASEVILLE, Mich. (AP) — How would you like to see your high school basketball team score 112 points and still get clobbered by 16 points?

That's just what happened to Kinde North Huron here Friday night as the Warriors bowed to

Caseville, 120-112, in Class D basketball action.

"It was a real barnburner," said Al Pittenger, Caseville coach.

The Eagles, who are ranked third in this week's AP poll, got balanced scoring in running up

their 16th victory in 17 starts. Jim Quinn led the victory with 32 points and Dan Fortsch followed with 31. Dan Quinn had 28.

Kinde's Charlie Greene led all scorers, with 45 points in a losing effort.

Covert Frosh Win

Covert's freshman team edged past Lake Michigan Catholic 40-47 Friday, behind a 32-point performance by Baber. Williams added 11 for the winners.

Sleeve Gentry scored 22 for Lake Michigan, which is now 8-7.

EASY EDGAR: Edgar Wilson of Dowagiac makes it look easy as he prepares to drop in shot while teammate Otis Hill and Niles' Dave Schaefer watch during Friday night's game. Wilson scored 34 points to pace Chiefs to 77-71 victory. Story on Page 14. (Staff photo by Dave Arndt)

Ed Dow Hero For Paw Paw

PAW PAW — Sophomore Center Ed Dow hit a layup with only 14 seconds remaining to give Paw Paw a 86-85 victory over Three Rivers in a Wolverine league contest here Friday evening.

Th bucket capped a big comeback for the Redskins, who were behind by 10 points with 4:30 left in the game. But Jeff Maxwell dumped in 11 of his game-high 30 points in the final to pace the Redskin

rally. Paw Paw outscored the losers 27-17 in the fourth period. Dow and Mike Harney both added 15 points for the Redskins while Dal Poute had 24 for Three Rivers.

Three Rivers held a 50-40 rebound edge. Dow pulled down 17 rebounds and Mike Scott 12 for Paw Paw.

The win clinches third place for the Redskins in the final Wolverine standings. Three Rivers finished at 8-8.

Paw Paw also took the junior varsity game.

Coloma Wins Two

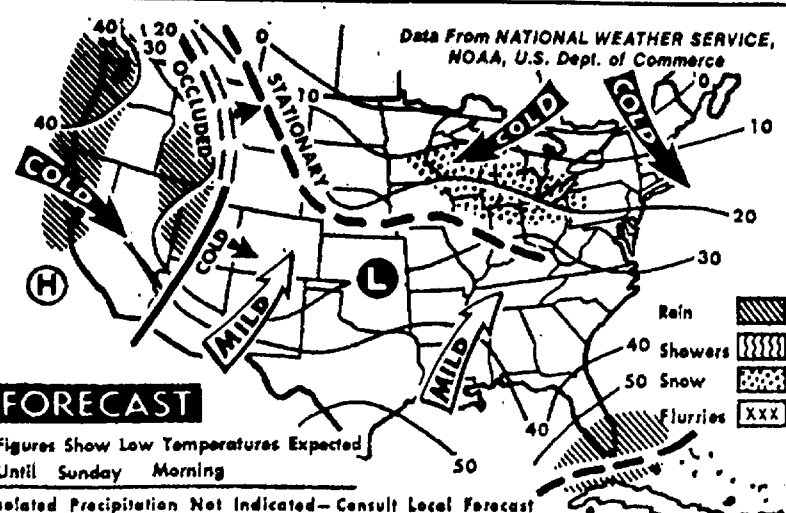

THREE OAKS — Coloma defeated both Brandywine and River Valley in Blossomland girls volleyball matches here Thursday.

Coloma downed Brandywine 15-11, 8-15 and 15-12 and River Valley 15-13 and 15-8. The Mustangs took the Bobcats 14-16, 15-11 and 16-14.

Measles Clinic In SJ Schools

A measles clinic will be held in all grades of the St. Joseph school system beginning Tuesday, Feb. 27.
Letters have been sent home with all students regarding this clinic, according to Margaret Van Anrooy, school nurse. Any parent who did not receive the letter and permission slip may pick a copy up at the nearest school, she said.
The Berrien county health department is administering vaccine to youngsters who have not had 7-10 day measles or German measles.
Immunization should not be requested for children who have had other immunization within the past 30 days or if the child has a known allergy to chickens, ducks, feathers, eggs, neomycin or streptomycin.

Misspelling Of Dentist's Name Is Corrected

It's Dr. W. Richard Kuball of St. Joseph and Dr. John S. Duda of Allen Park who will be starting their dental practices in South St. Joseph this summer.
Inadvertently Dr. Kuball's name was misspelled in an announcement earlier this week in which the two dentists said they will be opening offices in a new professional building at 2800 Niles road in St. Joseph township being developed by Howard Harris of St. Joseph.

INVESTORS' GUIDE

If You Like Stock Reinvest Dividends

By SAM SHULSKY
A CONCENTRATION of readers' letters in recent weeks have asked for information on dividend reinvestment for the purpose of acquiring additional shares.

By and large, I think it is a good idea — IF you feel you want more shares of the company. It's a "painless" way of investing since you never get your hands on the dividend money and, therefore, need expend no will power in channeling it back into building for your future. It is automatic — no bookkeeping on your part. In most cases, fees are well below the standard brokerage fees. And in some cases, you can even add fresh money for reinvestment.

There are, of course, a few caveats: 1- the money you reinvest is YOUR money — you are not getting anything "for free"; 2-it is just as taxable as though you took the cash and spent it for a pair of shoes; 3-it is a form of dollar-cost averaging, which is desirable, — IF you feel a declining stock will some day recover. (Otherwise it's just another way of throwing good money after bad.)

So — to try to put it all together — it can be an advantageous method for regular, periodic investing, but it doesn't mean that you can ignore all the other factors which determine investment policy.

Some companies handle this dividend reinvestment themselves or via certain banks. If you own stock of a company which does not appear on the following list, consult the treasurer of the

Berrien Marriage Licenses

The following marriage licenses have been issued by Berrien county Clerk Forrest H. Kesterke:
Steven Wayne Harbin, 25, and Charlene Kay Hulse, 20, both of Coloma.
Deryl Ralph Corbit, 24, and Linda May Bunker, 22, both of Berrien Springs.
Stanton Lloyd Sperry, 20, Sawyer, and Sherry Lynn Holt, 21, Bridgman.
Lowell Grant Church, 19, and Valerie Rene Armstrong, 18, both of Berrien Springs.
Robert Jon Ginter, 28, Benton Harbor, and Susan Lynn Noffke, 26, Coloma.
William Earl Fulton, Jr., 21, and Patricia Ann Rucker, 21, both of Benton Harbor.
Michael Loren Swem, 20, and Mary Jane Vavra, 21, both of New Buffalo.

Dennis Arthur Rupp, 21, and Paula Annette Abrams, 22, both of Stevensville.
Jerry Wayne Ewing, 27, Benton Harbor, and Sandra Jean Robinson, 25, Bridgman.
Paul Edward Ziemer, 24, Berrien Springs, and Kathleen Elizabeth Barber, 22, Dowagiac.
Thomas William Blain, 29, LaMesa, Calif., and Leslie Joan Larned, 26, Stevensville.
Ignacio Hernandez, 24, Michigan City, Ind., and Jacqueline R. Hawley, 22, New Buffalo.

Jim James Hogan, 48, and Marie A. Payne, 49, both New Buffalo.
Ted Foster, 21, Galien, and Joyce Marie Schwartz, 19, Buchanan.
Clarence Lee Kordus, Jr., 26, and Linda Kay Street, 26, both of Buchanan.

Berrien Divorces Granted

The following divorces have been granted in Berrien circuit court:

Pierce, Josephine E. of Niles from Robert D. Married May 1, 1960.
George, Judith A. of Berrien township from Charles E. Married May 25, 1968.

Batchelor, Brad D. of Buchanan from Sandra E. Married May 18, 1972.
Johnson, Mary Jane of Benton township from Bradley. Two children to the mother. Married Aug. 7, 1965.

Lainson, Donna Jean Mildred of Berrien Springs from Richard Melvin. Two children to the mother. Married Aug. 11, 1957.

Reish, Faith J. of Lincoln township from Arwyn D. Two children to the father. Married June 13, 1959.

Tribulation Turns To Dismay

It was parents' night at the Lake Michigan Catholic basketball game Friday, and for one mother, the tribulation of seeing the Lakers bow to Covert was followed by dismay on finding her house ransacked when she got home.

Mrs. Elta Carnegie, whose son Dave plays center for LMC, notified Benton Harbor police at 11:10 p.m. Officers said the home at 818 High street had been entered through a back door, drawers and closets had been rummaged through, with items scattered about rooms. "Not a piece of furniture had been left untouched," the police report states.

Mrs. Carnegie told officers she left home to attend the game.

Army Won't Bring Charges

WASHINGTON (AP) — The Army says it has decided not to bring two-year-old assault charges against a Louisiana GI who was released as a prisoner of war earlier this month.

A Pentagon spokesman said today Spec. 4 Keith A. Albert of Thibodaux, La., was advised of the decision Friday at Brooke Army Medical Center in San Antonio, Tex., where he is undergoing medical treatment.

CONFERENCE ON CRASH: Israeli Defense Minister Moshe Dayan, standing, speaks during press conference in Tel Aviv about the crash of a Libyan airliner. At right is Chief of Staff Lt. Gen. David Elazar. At left of Dayan is Maj. Gen. Mordechai Hod, commander of the Israeli air force. (AP Wirephoto by Radio from Tel Aviv)

Both Sides Blamed In Plane Shootdown

TEL AVIV (AP) — Israel said today the flight recorder from the Libyan airliner it shot down indicated everyone involved was at fault, welcomed an international probe of the incident, and suggested a hot line between Egypt and Israel to avoid similar tragedies.

Defense Minister Moshe Dayan told a news conference the recorder tapes had been examined and "we know more or less what happened." He cited the Libyan airline, Cairo air control and a misinterpretation of events by "our own people."

Israeli fighters shot the plane down Wednesday after it strayed over military installations along the Suez Canal. The Israeli chief of staff, Lt. Gen. David Elazar, told the news conference he gave the order to force the plane down.

The crash killed 106 of the 113 persons aboard.

Dayan earlier paid a surprise visit to the survivors of the crash in a Beersheba hospital. He asked the Libyan pilot's wife to tour Israel as a guest of the government and she accepted. The copilot was still on the critical list.

A French steward told Dayan he was receiving good treatment at the hospital, but one of the other survivors, a Jordanian, turned his head and refused to speak to the defense minister.

Dayan said Friday he hoped the Arabs "will not feel they must take revenge. We acted out of an honest consideration that this plane — which was an enemy plane from an enemy country — had come her with hostile intentions."

But the Israeli military said the plane's flight recorder showed the pilot mistook the Israeli fighters for Egyptian MIGs and thought he was actually over Egyptian territory. "It may be assumed that the plane's crew erred completely in its orientation," a communiqué said.

A Lebanese newspaper claimed today that Libyan jet fighters have been flying over the Mediterranean with orders to shoot down Israeli El Al airliners where they encounter them.

Al Yom, which has close contacts with Egypt, quoted reliable Arab sources in Beirut as saying the move was decided by Col. Muammar Kadafi's ruling Revolutionary Command Council to avenge the downing of a Libyan jetliner by Israeli fighters Wednesday.

A Libyan Embassy spokesman in Beirut declined to comment on the report.

The report, if true, would have no immediate effect since the Israeli airline has been grounded by a strike that began Wednesday.

Al Yom said Libyan Mirages intercepted a Trans World Airlines plane over the Mediterranean Friday and questioned the captain about the aircraft's identity and course.

The paper gave no other details, and a TWA spokesman in Beirut said his office had "received no word about such an incident yet."

TWA has regular flights from Europe to Cairo and Tel Aviv.
Kadafi's government has been silent about what measures it would take following the downing of the Libyan airliner in the occupied Sinai Desert. The crash killed 106 of the 113 persons aboard.

A terse report over Tripoli Radio said Libya's Revolutionary Command Council had ended a two-day conference on the incident and had authorized Kadafi to send cables of condolences to the families of the victims.

No other decisions were reported.

In Cairo, sobbing relatives and friends tried to get through police lines to reach the bodies of victims of the Libyan crash. The police cordon held back crowds outside the city morgue, allowing only two relatives of each of the 39 Egyptian victims to enter the building.

Coffins containing the remains of 100 of the victims were handed over to Egypt across the Suez Canal Friday.

Police Roundup Report More Glass Breakage

Twin Cities area police Friday added six new complaints of window breaking incidents to 23 others, investigated Thursday.

BB guns, pellet guns, or slingshots were believed used in all instances, police stated.

St. Joseph police investigated four of the newest cases, all involving parked cars. Berrien sheriff's officers investigated the other two, one a parked car in Royalton township, the other a window at Respond, Inc., Baroda.

Benton Harbor police late Friday night arrested Cleo White, 34, of 331 Summit, on disorderly fighting and

drunkenness charges, after she allegedly tried to strike an officer with a hammer. The officer, Charles Harrison, said he deflected the blow. Police said they were called to the residence because of a family quarrel.

Mayme A. Bachteal, an employee of the Maud Preston Palenske Memorial Library, St. Joseph, told police Friday that a wallet, containing \$46 in cash, a \$10 traveler's check and papers, was stolen from an office in the library. The cash included a silver dollar and an old \$2 bill, police reported.

Robert Becker told state police from the Benton Harbor post Friday that his motorcycle was stolen from his yard, County Line road, Route 2, Watervliet.

Mercy Hospital

ADMISSIONS
Patients admitted to Mercy hospital during the past 24 hours include:

Benton Harbor — Ernest Tate, 459 South Broadway; Mrs. Ethel Stuart, route 2, Box 160; Linnie Taylor, 1094 Blossom lane; Mrs. Denise Taylor, 412 Pavone; Brian Watkins, 2133 Holly drive; Alex Daniels, 1713 Council drive; Mrs. Helen Palmer, route 3, Box 315-P; Barbara Wright, 346 Summit.

A boy, weighing 8 pounds 9½ ounces, was born to Mr. and Mrs. Arthur Carlyle, 719 Riverside, at 5 p.m. Friday.

Drain Board OKs Project In Weesaw

A three-member Berrien county drain commissioner's board of determination this week okayed a proposal to clean and debrush some 2,900 feet of open county storm drain in Puffall drain, Weesaw township.

A spokesman for Drain Commissioner Harry Nye said, however, that the board set a limit of \$2,000 for the job. Drain district residents petitioned for it and will pay for it. Also to pay are the township and county road commission.

Drain work is planned for a section between Sand Ridge and Pardee roads north of Sawyer road.

The Payroll Savings Plan helps you save some of your living for later.

Sure there are lots of things you want right now. Lots of things you need.

But, the sun's going to shine tomorrow, too.

That's why it's important you do something today to build a little nest egg for the future. And there's no easier way to do that than by joining the Payroll Savings Plan where you work. You sign up once and any amount you specify will be set aside from each paycheck and used to buy U.S. Savings Bonds.

The Payroll Savings Plan. The perfect way to help your good life stay that way.

Now E Bonds pay 5½% interest when held to maturity of 5 years, 10 months (4% the first year). Bonds are replaced if lost, stolen, or destroyed. When needed they can be cashed at your bank. Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.

Take stock in America.

Join the Payroll Savings Plan.

LEGAL NOTICES

TOWNSHIP OF LINCOLN
COUNTY OF BERRIEN
MICHIGAN
RESOLUTION

At a meeting of the Lincoln Township Board for the Township of Lincoln, Berrien County, Michigan, held in the Township Hall in the Village of Stevensville, on February 13, 1973, it was moved and supported that the following amendments to the Lincoln Township Zoning Ordinance be adopted:

SECTION III. RESIDENTIAL

In the Residential Zone, no building or land shall be used and no building shall be hereafter erected, converted or structurally altered, unless otherwise provided in this Ordinance, except for one or more of the following uses:

1. Single family dwelling.
2. Non-profit hospital, religious, educational and philanthropic institutions, but not penal or mental treatment institutions, animal clinics and mental hospitals.

3. Private clubs and like entities shall be allowed only if approved by the Township Board upon recommendation of the Planning Commission, which recommendation shall not be binding upon the Township Board.

4. Farming and truck gardening.

5. Accessory buildings and uses customarily incidental to any of the above uses, including storage garages where the lot is occupied by a hospital or institutional building. If the storage garage is not a part of the main building, it shall be located not less than sixty (60) feet from the front yard line.

HEIGHT: No dwelling in this district shall exceed thirty-five (35) feet or two and one-half (2½) stories in height.

SIDE YARD: There shall be a side yard on each side of a building a width of not less than ten (10) feet. No garage shall be erected closer than ten (10) feet from the side lot line, even though said garage shall be attached to the house or completely to the rear of the lot. (See set-backs for public and semi-public buildings.)

REAR YARD: There shall be a rear yard having a minimum depth of twenty-five (25) feet.

SET BACKS: In new areas and in blocks where no dwellings have previously been constructed, a set back of not less than thirty-five (35) feet shall be maintained. In areas or blocks where dwellings have previously been constructed, no dwelling shall be constructed with set back less than the average set back of said previously constructed dwellings and on all through lots a set back of thirty-five (35) feet shall be maintained for all buildings, including dwelling houses, on both streets, front and rear, unless approved otherwise by the Planning Commission.

Public & Semi-Public Buildings permitted in this district may be erected to a HEIGHT of seventy-five (75) feet, provided said buildings are SET BACK one (1) foot for every foot of height, but in no case shall the set back be less than thirty-five (35) feet and each SIDE YARD shall be equal to or exceed in width the front set back.

LOT WIDTH: There shall be a lot width of not less than ninety (90) feet as the authorized set back line.

INTENSITY OF USE: A lot on which there is erected a single-family dwelling shall contain an area of not less than twelve thousand (12,000) square feet.

Buildings other than residences shall provide lot areas commensurate with the size and use of the buildings.

No yard, court or other open space provided about any buildings shall again be used as a yard or open space for another building for the purpose of complying with the provisions of this Ordinance.

ON ALL CORNER LOTS the garage and other accessory building or buildings shall be attached to the house, except that detached garages or accessory buildings are allowed if such will not obstruct the view from any dwelling located or which might be located on the lot immediately to the rear to a greater extent than if such garage or accessory buildings were attached to the house.

ON ALL THROUGH LOTS in this district, the garage or other accessory building or buildings shall be attached to the house thereon; provided, however, that where the width of, or the use being made of, such through lot, and the location of any dwelling house on any adjoining lot or lots, or any combination of these features, are such that the

construction of the garage or accessory building on such through lot, separate from the dwelling thereon, will not obstruct the view of the occupant of any house or houses on said adjoining lots to a greater extent than would the dwelling thereon with garage and other accessory building attached, this rule shall not apply; and provided further that any detached garage or other accessory building erected on such through lot shall be so located as not to obstruct the view of the occupants of the dwelling house or houses on any of said adjoining lots to a greater extent or differently than would be in the event such dwelling and accessory building were detached.

PARKING REGULATIONS: Where a lot is occupied by a single family dwelling, there shall be provided accessible parking space on the lot adequate to accommodate at least one car. Where a lot is occupied by a hospital, one parking space shall be provided on the lot for each hospital bed. All other uses permitted in this district shall provide one parking space on the lot for each one thousand (1,000) square feet of floor space in the building.

OUTSIDE TOILETS: No outside toilets shall be erected, used or maintained in this district; except outside toilets are permitted on farms for migrant help, provided they are a minimum distance of one hundred fifty (150) feet from a public road.

SECTION III-A. MULTIPLE DWELLING DISTRICT

The regulations set forth in this section, or set forth elsewhere in the Ordinance when referred to in this section, are the district regulations for Multiple Dwelling District (three (3) or more dwelling units in one building).

USE REGULATIONS: A building on the premises shall be used only for the following purposes:

1. Multiple Dwelling Units
2. Duplex Dwelling Units
3. Single Family Dwelling, on a non-subdivision basis, only if approved by the Township Board with recommendation of the Township Planning Commission.

4. Accessory buildings and uses customarily incidental to any of the above uses, including storage garages where the lot is occupied by a multiple dwelling unit. If the storage garage is not a part of the main building, it shall be located not less than sixty (60) feet from the front street line.

PARKING REGULATIONS: There shall be provided accessible off-street parking space on the lot adequate to accommodate one and one-half (1½) cars for every dwelling unit provided in the main building. (See Duplex Dwelling District for Duplex regulations)

HEIGHT REGULATIONS: No building shall exceed two and one-half (2½) stories, nor thirty-five (35) feet in height.

SIDE YARD: The side yard regulations are the same as those in the Residential District.

REAR YARD: The rear yard regulations are the same as those in the Residential District.

SET BACKS: The set back regulations are the same as those in the Residential District.

AREA REQUIREMENTS: A. Building Area Requirements:

(1) One bedroom unit: A minimum of six hundred fifty (650) square feet per unit, excluding utility room.
(2) Two bedroom unit: A minimum of seven hundred fifty (750) square feet per unit, excluding utility room.
(3) Three bedroom unit: A minimum of nine hundred (900) square feet per unit, excluding utility room.
(4) Additional bedrooms will require one hundred (100) square feet per unit.

B. Land Area Requirements: The land area in a three-family unit shall be 12,500 square feet. Each additional unit thereafter shall require an additional 2,500 square feet of land area.

These land area requirements are minimum and may be increased upon recommendations of the County Health Department.

SECTION III-C. DUPLEX DWELLING DISTRICT

The regulations set forth in this section, or set forth elsewhere in the Ordinance when referred to in this section, are the district regulations for the Duplex Dwelling District (two (2) dwelling units in one building).

USE REGULATIONS: A

building on the premises shall be used only for the following purposes:

1. Single-family dwellings.
2. Duplex dwellings.
3. Non-profit hospital, religious, educational and philanthropic institutions, but not penal or mental treatment institutions, animal clinic and mental hospital.

4. Private clubs and like entities shall be allowed only if approved by the Township Board upon recommendation of the Planning Commission, which recommendation shall not be binding upon the Township Board.

5. Accessory buildings and uses customarily incidental to any of the above uses, including storage garages, where the lot is occupied by buildings other than a single family or duplex dwelling. If the storage garage is not a part of the building, it shall be located not less than sixty (60) feet from the front street line.

GARAGES: For each duplex unit there shall be provided at least a one-car garage.

HEIGHT: No dwelling in this district shall exceed thirty-five (35) feet or two and one-half (2½) stories in height.

SIDE YARD: There shall be a side yard on each side of a building a width of not less than ten (10) feet. No garage shall be erected closer than ten (10) feet from the side lot line, even though said garage shall be attached to the house or completely to the rear of the lot. (See set-backs for public & semi-public buildings — as set forth in Residential District.)

REAR YARD: There shall be a rear yard having a minimum depth of twenty-five (25) feet.

SET BACKS: In new areas and in blocks where no dwellings have previously been constructed, a set back of not less than thirty-five (35) feet shall be maintained. In areas or blocks where dwellings have previously been constructed, no dwelling shall be constructed with set back less than the average set back of said previously constructed dwellings and on all through lots a set back of thirty-five (35) feet shall be maintained for all buildings, including dwelling houses, on both streets, front and rear, unless approved otherwise by the Planning Commission.

LOT WIDTH: There shall be a lot width of not less than ninety (90) feet at the authorized set back line.

INTENSITY OF USE: Except as hereinafter provided, all dwellings hereafter erected, enlarged, relocated or reconstructed shall be located on lots containing the following areas:

1. Single Family Dwellings: A minimum of 12,000 square feet per building.
2. One Bedroom Duplex: A minimum of 12,000 square feet per building.
3. Two Bedroom Duplex: A minimum of 15,000 square feet per building.
4. Three Bedroom Duplex: A minimum of 20,000 square feet per building.

Buildings other than residences shall provide lot areas commensurate with the size and use of the buildings.

No yard, court or other open space provided about any building shall again be used as a yard or other open space for another building for the purpose of complying with the provisions of this ordinance.

In this duplex dwelling district only one building may be located on a parcel of property assigned a property code by the Berrien County Tax Description office, providing seventy (70) feet of frontage for that particular building is available on a public road.

This amendment is hereby given immediate effect.

Motion carried. Resolution adopted.

BERNICE TRETHEWAY LINCOLN TOWNSHIP CLERK

I hereby certify that the foregoing is a true and accurate copy of a resolution adopted by the Township Board for Lincoln Township, Berrien County, Michigan, on February 13, 1973.
